

We help you build
quality custom
software.

ABOUT US

Fortech is a **top Romanian IT services company** that provides full-stack software development services, from business analysis, architecture and user experience design, to coding, software testing and development operations.

By leveraging agile teams with diverse technical skills and strong business knowledge, we support our clients wherever they are on their path with technology. We partner with them to scale, accelerate, optimize or reinvent their firms and the world of their clients.

KEY FACTS

- 19+ years of excellence in software development
- 1 000+ delivered projects
- 270 all-time clients
- 1 150+ employees

USE CASES OVERVIEW

TEAM EXTENSION

Your team needs more throughput, or you need to accelerate your delivery schedules.

TECHNICAL KNOW-HOW

You need specialized expertise to cover your project's technical requirements.

PRODUCT DEVELOPMENT

You need end-to-end engineering services to develop a product, MVP, or PoC.

PROCESS AUTOMATION

You want to use smart bots to reduce repetitive time-consuming tasks.

BUDGET OPTIMIZATION

You need a nearshore partner to improve costs while maintaining quality.

STRATEGIC INVESTMENT

You need a partner that co-invests resources to support your innovation initiatives and bring ideas to life
